R. D. JONES,
"State Dep't Controller."

STRIKERS IN A RIOT.

Assault Made on Deputies and Several Hurt.

WOMEN LEAD THE CROWD.

The Deputies Were Going to Evict the Crowd From the Company's House but Were Changed Their Minds and Left With Bruises.

Pittsburg, Sept. 7.—Efforts to evict the striking miners of the Pittsburg and Chicago Coal company at Orangeville, one and a half miles from Gastonville, resulted in a riot and failure on the part of the company to accomplish its object. When the news that evictions were to be attempted, the whole vicinity about Finleyville, Gastonville and Orangeville became wildly excited.

About 7 o'clock last night about 20 deputies from Washington, Pa., in charge of Chief Deputy Joseph H. Wetherell, reached Finleyville. Each deputy was armed with a Winchester and a revolver, but in spite of this the strikers, headed by 100 Polish women, closed in on them. They were gradually forced back and finally retreated to Gastonville, where they were followed by a crowd of 200 men and women. At Gastonville the deputies took refuge in the office of the company, which was bombarded with stones and bricks and an occasional shot was fired.

This morning the trouble of the night reached a climax when the deputies sallied out from their besieged quarters and started for Orangeville. Headed by women, the strikers rushed on the deputies with stones, clubs, pickhandles, and blows fell thick and fast. One of the big women wrested a rifle from a deputy and struck him on the head with it, inflicting a serious injury. By this time 1000 men, women and children had joined the crowd. They came from Veneta, Snowden, Calamity and Finleyville. The deputies slowly made their way to Orangeville, taking all insults and injuries, but never firing a shot. They finally took refuge in a vacant house, closely followed by the mob, which quickly surrounded the building and threatened to burn it. One of the strikers then approached the house with a flag of truce and a conference was held.

The deputies were ordered to leave town and after a short delay decided to do so. They emerged from the house a badly scared lot and walking between open ranks strikers started for Gastonville. Almost every man in the posse was cut and bleeding and several seriously hurt. One had his right hand almost severed by a sharp stone.

At the defeated deputies ran the gauntlet they were greeted with hisses, curses and ridicule. Strikers then closed behind them and marched them to the station, where they took the train for Washington.

After their departure the mob dispersed and everything became quiet. Officials of the county say no further attempt will be made to evict the miners.

Miners Electing Delegates.

Pittsburg, Sept. 7.—The Pittsburg miners' convention to elect delegates to the national convention which meets in Columbus tomorrow, assembled here this morning with nearly 700 delegates, representing every mine in the district.

The morning session was taken up with receiving credentials and forming organization. The delegates were divided upon the question of accepting 60 cents or standing firm for the 65 cent rate, but it is thought that the influence of the leaders will result in a declaration for the compromise.

West Virginia Miners.

Wheeling, Sept. 7.—District meetings were held in all West Virginia regions where the strike exists last night and today. At Fairmont delegates were instructed to secure, if possible, a continuance of the strike till West Virginia is in a position to demand recognition, but if that is not possible, to secure a national pledge to continue organization work in the state till the whole state is organized and able to demand wages based upon the union scale.

J. W. Rhea, of the painters and decorators union, who has led the Fairmont fight so well, is one of the delegates. Rhea stated that if the Columbus meeting does settle the strike all union labor in Chicago, including railroaders, would at once boycott and refuse to use or handle non-union coal. This has been agreed upon secretly.

Stand by the Engineers.

Birmingham, Eng., Sept. 7.—The Trades Union congress resumed its sessions today. President Stevens, in his annual address, said: "The engineers' strike was the instance of one of the best organized and most powerful combination in the world, being in the throes of a great struggle with a powerful combination of capital. It was certain that the struggle would be prolonged and that the engineers would have to appeal for help to trades unionists throughout the country. That help must be given, for under no circumstances could they allow the engineers to be defeated."

TILLMAN AT ROCHESTER.

He Makes a Political Talk There as the Labor Celebration.

Rochester, N. Y., Sept. 7.—Senator Tillman was the orator of the Labor day celebration of the Rochester trade unions. His subject was "Labor and capital in their relation to politics." The senator advised the Democrats of the state to refuse to accept a candidate for the court of appeals who did not vote for Bryan and who did not stand on the Chicago platform. Referring to the injunction granted against the striking miners, the senator severely criticized the judges who granted the orders, and asserted that until an end was put to "government by injunction" there could be no liberty in this country.

The speaker ridiculed the bimetallic commission, and deplored the spectacle of the United States going to European countries and begging for bimetallicism. It would be just as sensible to ask for an international agreement in the passage of tariff laws, he said, as to ask for an international monetary agreement.

Bryan Speaks at St. Louis.

St. Louis, Sept. 7.—The feature of the Labor day celebration here was an address by Hon. W. J. Bryan at Concordia park. The biggest crowd ever seen in the park greeted the speaker. His speech was enthusiastically received. Before the meeting Mr. Bryan reviewed a parade of 15,000 laboring men.

Fatal Wreck of Zanesville.

Zanesville, O., Sept. 7.—Labor day was here attended by many accidents and several fatalities. A train of six electric cars got beyond control and dashed down the "T" bridge incline and sidwiped an approaching train. Two people were fatally injured and several others seriously.

Millie and Cross Speaks.

Dallas, Sept. 7.—The feature of Labor day celebration here was speeches by Senator Millie and Attorney General Crane. About 5000 persons were in attendance.

The Second Suicide.

Altoona, Pa., Sept. 7.—Harry Clibough, who was a clerk in the Second National bank of this city when it was looted by Cashier Dardner three years ago, and who was arrested at the time for changing figures in his books at the cashier's dictation, committed suicide here by shooting himself. This is the second suicide as a result of the failure of this bank. Bank examiner Miller having shot himself while trying to untangle the defuncting cashier's accounts.

The Henry Case Decided.

Carson, Nev., Sept. 7.—Judge Hawley has decided the famous Henry case. James Henry was convicted of robbing the mint here. When in jail on the night Judge Hawley sentenced him to eight years imprisonment and a fine of \$5000, he transferred valuable property to his attorneys, William Woodburn and Tremor Coffin. The government contended that the assignment was made to defraud the United States. The court held that the assignments made by Henry, although the proceedings presented many suspicious features, were not fraudulent, and the assignment should stand.

Found a Skeleton.

Hillsboro, Tex., Sept. 7.—R. M. Huffhines found the skeleton of a man in a ravine on the farm of C. B. Jennings. He found part of the skull, a shoulder, arm and forearm, part of the backbone and three ribs. The skull and shoulder blade were full of bullet holes. The bones are supposed to be the remains of a man that was killed by Mexicans 25 years ago.

Badly Burned.

Luling, Tex., Sept. 7.—C. G. McCutcheon, living near Prairie Lea, had his house and contents destroyed by fire Sunday night. His little girl had prepared to start a fire with coal oil when the can exploded, burning the little one and her father badly. The former is supposed to be fatally burned.

A Minister Expelled.

Seattle, Sept. 7.—A special from Everett announces the conviction by the committee of the Puget Sound Methodist conference of Rev. W. T. Ford, formerly pastor of the church of this city, on a charge of intimacy with his servant girl. Rev. Ford was expelled from the church by a vote of 12 to 1.

Amount of the Heist.

Denver, Sept. 7.—The officers of the Pacific Express company estimate the amount of money stolen from their safe by the train robbers near Polson, N. M., Friday night at not more than \$2500. This was all the safe contained, and it is supposed the robbers took it all.

Boys Injured by Dynamite.

Chicago, Sept. 7.—Four boys, whose ages range from 10 to 14 years, were severely injured here by the explosion of a dynamite cartridge which they found while playing. The injured: P. Martin, eye torn out; John Martin, leg broken; Frank Oliniski, face mangled; and John Oliniski, face mangled.

Charged With Assault.

Fort Worth, Tex., Sept. 7.—William Hickey was bound over in the sum of \$750 to await grand jury action on a charge of attempted criminal assault. The complainant in the case was J. C. Burns, the keeper of the Santa Fe section house at Haskell.

IRELAND THREATENED

Alarming Predictions as to a Famine Seem Justified.

THE HARVEST A FAILURE.

Cries of Warning to the Government Are Coming From All Parts of That Country—Reports of the Crops Discouraging.

New York, Sept. 7.—A dispatch to the World from London says:

The World's special inquiries throughout Ireland fully corroborate the alarming predictions called Saturday of the failure of the harvest and a consequent impending famine.

Cries of warning to the government are rising in a crescendo scale from all parts of Ireland. They are not confined, as in former years of distress, to the congested districts on the Western seaboard.

From Mullingar, one of the most prosperous parts of the Midlands, a correspondent telegraphs:

"The crops are irretrievably destroyed. It will be impossible for the farmers to make anything of their cereals this year, as they are quickly rotting. In the churches yesterday prayers for fine weather were recited, and if a change does not come immediately the crops might as well be turned to manure the ground."

From County Wexford, noted as one of the richest in the country, the tidings are:

"The green crop may be described as a gigantic failure in County Wexford this year. The greater part of the potato crop is only fit for feeding cattle."

From Fermanagh, in Ulster county, a correspondent telegraphs:

"At a meeting held here to ask for a reduction in rents, the parish priests, presiding, declared that not since the black 1847 has the prospect for farmers in this district been so bad. In several places the potatoes have been a failure. Hundreds of tons of hay have been ruined by the heavy rains and floods."

From Carlow, known as "The Model Country," comes this despatch:

"There is before our farmers an outlook as disastrous as it is possible to conceive, owing to the frightful weather. A great deal of corn cut early remains in the stalks, injured beyond recovery. In many districts the farmers have been unable to cut their crops, which present the saddest spectacle of being levelled in the earth by the scorching sun, while a mass of seed corn grows in the ground."

The apprehensions concerning potatoes also have been dimly realized. At a meeting of the board of guardians at Mitchellstown, county Cork, the chairman said:

"The potato crop is generally a failure, while the other crops have been hopelessly injured by the unparalleled inclemency of the season. We are on the verge of a great agricultural crisis. The outlook in farming affairs is gloomy in the extreme and to aggravate the condition of affairs caused by the failure of the potato crop, the prices of provisions are considerably increased, and before long the people who are supposed to contribute to the poor rates would be in workhouses themselves."

These evidences of the widespread character of the ruin wrought by the inclement season are merely samples from numerous reports received.

The Irish government has adopted no measure yet to cope with the threatened famine.

DID NOT CONVENE.

Cuba Did Not Assemble at Camaguey to Elect a President.

Havana, Sept. 7.—It is reported here on reliable authority that the meeting of the constituent assembly, which was to have taken place on Sept. 2 at Camaguey was postponed. The reason for the postponement of the convention, which is to elect a new president of the Cuban republic is not yet known here. It is, however, surmised that the cause for the delay is the non-arrival of Camaguey on the day fixed for the meeting of the assembly of some other representatives.

It is explained by the agent of the insurgents in this city that the bad condition of the roads at this season of the year in Cuba renders very difficult the march of the men who are to reach Camaguey, in order to take part in the election. The passage of the Morrotrah is one of the many serious obstacles which the contingent of troops accompanying the Eastern deputies will have to overcome before they reach the meeting place of the assembly.

Missouri Corn Crop Injured.

St. Louis, Sept. 7.—The heat has been intense in different sections of the state during the past week or more, and this, combined with the scarcity of moisture, is doing up the corn and causing suffering among cattle.

A dispatch from Centralia, Mo., says this section is now undergoing one of the severest droughts since its history. The grain is damaged, pastures eaten out and stock water is becoming very scarce.

Nominated a Cleveland Democrat.

Denver, Sept. 7.—There is consternation among the Democrats over the discovery that the state convention which met here yesterday nominated a Cleveland Democrat as a candidate for justice of the supreme court. The nominee, John A. Gordon, took an active part in the Pueblo convention in 1892 and led bolters from the convention after it repudiated Grover Cleveland on account of his position on the money question.

I'VE GOT 'EM!

And no mistake! Every freight is bringing me Fresh Goods, and I am preparing the biggest **PROFIT CUTTING SALE** you ever witnessed. In the meantime, if you run short of anything just make use of the Phone. That's what I've got it for.

Remember, Old Saturday is Coming

Save your money, as it will mean a Profit to you.

Yours Truly

Whisky Sense

You Want the Best
Any Whisky is Whisky. True, so any tea is tea. So any flour is flour, but grades differ. You want the best. If you understood Whisky as well as you do tea and flour, it would be easy to determine. But you don't. How should you?
When you are going to buy a commodity whose value you do not know, you pick out an old established house to trade with and treat their experience and reputation. Do so when buying whisky.

DUNN & DALY have been in the Whisky business for years and handle the PUREST WHISKIES. Try them.
